

Hello iLLumiNuTTi visitor and thank you for taking the additional step of downloading this PDF.

Why have I asked you to click an image to download this PDF? Two reasons:

1. I thought the additional step of clicking a mysterious image in order to gain mystery knowledge would help enhance the overall mysterious feel of the video you just watched and,
2. I didn't want to spoil the video by discussing the validity/origins of the video in plain sight.

Speaking of validity, is this video for real? What is the scoop?

No. It's a fake. The video is a spoof created by filmmaker Matt Anderson (<http://manderson.us/FILM/>) starring actor Arthur Roberts (<http://tinyurl.com/cf7su2y>) first posted sometime around August 2010.

Matt Anderson (manderboots@gmail.com) wrote:

*"Illumicorp is a parody of sorts. I guess the best way to describe it is that I wanted to make a corporate training video for the 'Illuminati' that synthesized all of the conspiracy information floating around. If such a group did exist, how would they really function? My wager was they would act just like any other faceless mega-corporation. It was originally to be part of a larger project, but that never came about so I released Illumicorp as it's own standalone video."*

Matt

(source: <http://tinyurl.com/d4a6mjl>)

Why post this video now, after almost 3 years after it was first posted on the web? Two reasons:

1. I just discovered this video recently via the iLLumiNuTTi facebook page (<http://tinyurl.com/dxqyx9e>) and,
2. I find this video to be an excellent example of confirmation bias run wild and therefore an **EXCELLENT** tool for learning what New World Order (NWO) conspiracists think and believe.

*Confirmation bias: a tendency of people to favor information that confirms their beliefs or hypotheses. The effect is stronger for emotionally charged issues and for deeply entrenched beliefs. (source: <http://tinyurl.com/v6bgx>)*

This was an obscure spoof video posted on a remote webpage where it was found by conspiracists. Without any semblance of an investigation to seek out its true origins, many conspiracists blindly embraced this video as a bona fide “leaked illuminati training video” - the undeniable smoking gun proving a New World Order (NWO) is afoot. The video spread like a jet-fueled wild fire.

The magic attraction of this video to the conspiratorial world is a testament to the genius of Matt Anderson and a sad commentary on the world of conspiracy theorists.

Think about it, Matt Anderson took the time, did his homework and learned the theories conspiracists have been regurgitating for eons. Like an echo, he then fed these theories back to the conspiracists.

The information in this video comported so well with their deeply held beliefs, conspiracists were overcome by confirmation bias. Their fervent desire to believe overwhelmed their claimed search to discover the truth.

The persuasive power of confirmation bias is directly proportional to the strength of one’s own convictions. The more powerful your convictions, the more susceptible you are to believe in lieu of questioning. This video hit so close to home that conspiracists blindly accepted it as fact. For this reason, this video becomes an invaluable educational tool for the rest of us to understand the world of NWO conspiracy theories.

Watch, learn and remember to fend off your own confirmation biases by questioning everything.

Mason I. Bilderber (MIB)  
5/13/13

P.S. As an added bonus, I have included a transcription of the video (below). Again, this information hit so close to home for so many conspiracists this transcript gives us an excellent insight into the wacky world of conspiratorial thinking.

Enjoy ☺

# Illumicorp – Training Module I

## This is How the New World Order Works

Hello initiates and welcome to module one of the Illumicorp video training course. I would like to officially welcome you as a member of the team.

You've joined our organization at perhaps the most exciting point in our long history. Our founders shared a passionate dream. To transform this country, and eventually the whole world to one cohesive organization.

When Illumicorp finishes gaining centralized control over the resources of the planet, and we will, we can then organize, distribute, and govern for the benefit of all. After competition and dissent are eliminated, we'll build a utopia for the people of the world to share, based on need, and rejoice together in a harmonious new world.

This presentation is designed to enlighten you about our organization's goals and achievements. As your guide, I will help to answer some basic questions you might have about Illumicorp, and familiarize you with the valuable role you will play in helping us reach our prime objective. So please, take a tour with me as we march together towards an exciting new world.

All people are aware of class. To them, society is made up of the rich, the middle and the poor. The one thing that all three classes don't understand is that the pyramid continues upward. There is a detached hidden capstone made up of an elite board of directors who own and manage Illumicorp. The three classes below, in essence, become the assets and resources of Illumicorp. Illumicorp is divided into various administrative branches. But each branch has the same five levels in their hierarchy. You will begin at the bottom in the initiate category. As such, your role will be to make sure that your orders are carried out through the sub corporations and institutions controlled by Illumicorp.

You will be placed in plain sight at the head of a company or institution in the public sector to carry out the plans delivered from above. Remember, your role is very important. You'll be the face of Illumicorp to the outside world. You are our connection to the masses below. Never speak publicly about your orders or your masters.

Now let's look at Illumicorp six administrative branches and their functions. You'll be placed in a top position of power among one of the following sectors. In this way, as you are monitored and guided from above, you will decide strategy and introduce programs that further our goals. For that is the secret to Illumicorp success. Control the head, and you control the body.

## I. BANKING & BUSINESS

This is potentially Illumicorps most effective instrument for global control. Through international banking, we manipulate the face of all countries. We've introduced many institutions such as the IMF and WTO that work in our favor to impoverish disobedient nations. Always remember, debt is a powerful weapon against countries that don't share Illumicorps vision.

Perhaps our greatest achievement in banking is the Federal Reserve system. It is a collection of international banks owned by Illumicorp members and financiers. It was created to form a centralized banking system through the Federal Reserve Act of 1913. An act that was indeed penned by some of our most esteemed members.

Many of you might still assume that the government itself prints and issues the currency. That is not the case. When America needs money they go to our boys and ask for it. The money is printed, but it is only representative of a loan. Interest accrues on that dollar until it is paid back to the Fed. In fact the federal taxes paid by the American population go almost entirely to paying off this debt. So you see, Illumicorp derives a healthy amount of its operation funding directly from the debt of the public. Needless to say, this is one of our most crucial sources of funding and one of our proudest achievements here at Illumicorp.

Through mergers and acquisitions, we have slowly and silently bought up the majority of U.S. industry. Illumicorp and its members own most of the oil, transport, banking, media, food and communications industries in America and abroad. Through fewer and fewer conglomerates we are able to affect with great precision the machinations of labor and government.

Ultimately, corporations will replace government as a centralized international body that can meet the needs of the public worldwide, without the chaos created by national self-interest. When

Illumicorp goes public, corporatism will be the foundation for world government. Conglomerates will merge into one cohesive corporation that is responsible only to Illumicorp and the needs of its global employment force.

## II. MILITARY & INTELLIGENCE

Illumicorps control of the American military is another impressive tool in our possession. We have nurtured these institutions lavishly to serve as the prototype for our global police force.

When ready, our technology and manpower will dominate those who oppose the coming New World Order. By utilizing American patriotism we have fostered in the American soldier the philosophy of peace through superior force. When the time is right, we will migrate that mentality towards the belief in a global government, who must protect all people through superior force.

We have used the American military industrial complex to build the arsenal necessary to instigate the final cleansing, outlined in Illumicorps great plan. Our primary target will be Islamic nations who will never submit to our western centric domination. They also hold much of the remaining oil reserves of the planet. Illumicorp must own that precious resource as it is crucial in maintaining our domination over the countries of the world.

Through Illumicorps enormous funding of the military, we can develop new forms of warfare and population reduction. The public can't imagine what we're in the process of developing. Soon, even the weather will be a weapon under our control. We will be able to create droughts, floods, hurricanes, and even tsunamis, with no fingerprints attached.

### III. POLITICS

The political system of America has been under direct control of Illumicorp for some time. It was actually a relatively easy acquisition, and has been even easier to manage. Politicians know of our unspoken agreement, and will do anything to stay in power.

A two party system benefits Illumicorp, in that it reduces all issues into a black and white debate. Through media we can play side against side, using each when necessary to support our goals. Due to a diminishing faith in the system among the public, Illumicorp has designed a rogue candidate program to provide a voice for the dispossessed. This disperses the impetus for dissent among those who do not feel represented by our candidates and builds a database of potential dissidents.

### IV. EDUCATION

At the turn of the last century, Illumicorp took a serious interest in public education. Our supreme council realized that by creating a private organization to dictate curriculum on a federal level, children could be conditioned into obedience on a mass scale. In the interest of

promoting Illumicorp principles in the classroom, hundreds of millions of dollars were invested to create the General Education Board in 1902. The result of doing this is evident today. The doctrines of public education have transformed recent generations into a weaker, more docile mass. Through meticulously planned curriculum, we have control over the process by which the average child learns, thus we can mold them into obedient workers who are conditioned to accept the implementation of the great plan.

In addition, Illumicorp has set up many associations, including the American Historical Association, that determine and uphold the official view of history. Knowledge is power, so we must at all costs be the authors of the truth. By writing history to suit our interests, dissenting voices cannot gain ground and we can vastly influence culture to achieve our prime objective.

## V. MEDIA

Illumicorp uses the media to shape public opinion about current events and condition desired attitudes about our future agenda. Through news, entertainment, and advertising we can program a variety of emotions and responses into the collective unconscious. In the past, we were limited entirely to print media. But now we have multiple mediums to utilize in programming and conditioning the masses. With cable news, we have directed the

public to a more entertainment-based consumption of world events. Infotainment. This medium is far more effective at subliminal reinforcement of desired attitudes towards our objectives. For instance, we are currently instilling a sense of duty towards environmental issues.

With our growing control of the weather through HAARP and chemtrails, we will scare the public into accepting our global protection agendas. We will then phase into the great cleansing, which must occur, to return the population to a manageable size. We reinforce the desired norm through advertising, creating a model for people to look up to that is virtually impossible. The result is an incomplete desperate individual seeking acceptance. Through reality television game shows, we repeat the pattern of individual survival verses group survival. This breaks down the idea of community and breeds individuals who seek only their self-interest. With a public that is constantly suspicious and scheming we maintain the status quo of a divided population that never thinks to look up.

## VI. RELIGION

Religion has served its purpose incredibly well. It is the oldest and perhaps the broadest form of social control utilized by Illumicorp. With religion, there is a written code of conduct that must be followed. The authors of the holy scriptures knew quite well how to lace that code with demands to maintain their dominance over the population. This system has survived through millenia to hold the flock together and bring us to today.

Admittedly, religion is losing its power of control. However, the fanaticism that has arisen due to this decline is particularly helpful to Illumicorp. Our invisible influence of the church has helped bring the Christian fundamentalists out of the background. We control their opinions on current issues, through policies designed and written right here at Illumicorp headquarters. They are ascent to our ministers who then preach the word of God and their interpretations of the bible to their blind followers.

Their blind faith is used to transform them into willing soldiers; to defend our cause during the catastrophes ahead.

As the final phase is enacted, we will propagate end time prophesy to convince them of their convictions. The rise of Islamic fundamentalism works to Illumicorps advantage as a threat that will demand violent action. In the coming years, planned terrorist attacks will warrant a full scale retaliation and initiate the final phase of the great plan. Christians will support our actions, since they will believe them to be proof of end times; prophesy by Illumicorps religious leaders.

## A WORD FROM OUR PRESIDENT

We are in the last days of darkness. Together in secret, we wait to begin the final phase of the great plan. The sun is rising, and it will beam a glorious dawn upon our new world. As an employee of Illumicorp, you are above the limitations of nationality, class and religion. You are a member of the Illumined now. Your loyalty and your devotion belong only with us. Help us finish the plan. Together, we will proudly initiate the New World Order.

Now that you have a basic understanding of how we work over here at Illumicorp, I would like to introduce to you one of our latest projects.

## THE CONTROL GRID

Since ancient times, it has been the desire of the illumined to wield control over the masses below, both to protect us from them and them from themselves. The tools through the ages have been effective, but always blunt and inaccurate. But now, with the release of new technology to the masses, we have the real ability to implement a control grid with finance, industry, governments and military under our strict control, who can safely shift the population into a new world, monitored and controlled, by Illumicorp.

Technology such as the internet, GPS, and RFID chips are pillars of the invisible prison we are erecting around the people. Within the decade, we will have real ID cards that contain criminal records and pertinent information all linked to federal databases. Cell phones will tell us where each individual is, linked to the same database. Through intelligence agencies and Homeland Security, we'll monitor individuals who oppose the great plan and remove them from the grid. Quickly the population will learn that they have a choice; support the system and benefit from its luxuries or reject it and lose access to the grid.

Well, that was quite an overview. I hope it gave you an understanding of our process and basic overall structure here at Illumicorp. Don't worry if you can't remember specific details at the moment. Once assigned to your administrative branch, you'll be shown the second Illumicorp training module. Your initiate supervisor will brief you on your specific duties at that point.

Also, please review your copy of the great plan and the attached codeword and symbols booklet. You will need to know the ways we communicate internally through public channels. This concludes part one of the Illumicorp video training module. I wish you the best of luck, and may our plan complete and supersede. The dawn of a new era is on the horizon and it will shine gloriously over the new world that we have built together.
